# 19" 1U Modular Cable Organizer | With 5 Snap-in Rings

The new concept of Cable Management Panel with fully modular rings configuration provides high flexibility in cable management. The five rotatable cable guiding rings allow for easy management of horizontal or vertical arrays of patch cables. Furthermore, any patch cable can be moved or replaced individually with no hassle, and no tools are required for mounting the rings onto the 5 slot frame.

Rings in Vertical Position
Rings in Horizontal Position
